

Agronomy Technician: Kingsville/Leamington Area-based

Royal Brinkman Canada Inc. is a subsidiary of Royal Brinkman International, a 140-year-old company based in the Netherlands that is a leading supplier to the professional greenhouse horticulture sector. This family-owned organization is dedicated to creating a better and sustainable future for entrepreneurs in protected horticulture.

Royal Brinkman Canada Inc. is a customer service-focused company looking for an Agronomy Technician to work in the Kingsville/Leamington area on a full-time basis. The successful candidate will gain experience in various horticultural settings, including greenhouse vegetable, ornamental plants, nurseries, and mushrooms. If you are looking to work with a dedicated and passionate team in a role that can make a meaningful difference and add value to our customers, this could be the ideal opportunity for you.

Responsibilities:

- Under the direction of the Head Agronomist, relay to customers fertility and pest control programs involving cultural controls, biological controls, pesticides and fertility products.
- Execute trials for new products and new uses.
- Implement media, tissue, sap and leachate sampling programs.
- Partner with Royal Brinkman team members to drive sales and agronomic practices for customer profitability.
- Provide integrated pest management support: inspect and monitor plants for symptoms or signs of pests or diseases such as spider mite, aphids, thrips, powdery mildew, fusarium botrytis, phytophthora, etc.
- Provide a report on findings (complete a scout sheet) to the Head Agronomist.
- Comply with all Health & Safety and Standard Operating procedures and policies.
- Other duties assigned, including Integrated Pest Management (IPM), nutrient management duties

Skills & Qualifications:

- Education: Secondary school diploma or equivalent (required). Post-secondary education in Horticulture, Agriculture, or a related field is considered an asset.
- Experience: Previous experience in a greenhouse, horticulture, or agricultural setting is an asset.
- Certifications: Professional Agrologist/Agronomist and/or Certified Crop Advisor (CCA-ON) designation, or willingness to obtain.
- Technical Skills: Intermediate computer skills, including proficiency in Microsoft Office (Outlook, Word, Excel).
- Communication: Strong written and verbal communication skills in English.
- Attention to Detail: Demonstrates accuracy and thoroughness in work.
- Teamwork & Independence: Capable of working both independently and collaboratively in a team environment.
- Professionalism: Positive attitude, punctual, and reliable.
- Discretion & Professionalism: Ability to interact with customers respectfully and professionally, using discretion to assess situations and determine the appropriate level of engagement.
- Licensing: Valid G-class driver's license and access to reliable transportation.

Physical Requirements:

- Must be able to walk, stand, or perform repetitive tasks for extended periods of time.
- Comfortable working in hot, humid environments and at heights.

Additional Information:

- Work Schedule: Monday to Friday; No weekend hours.
- Flexibility: Willingness to work flexible hours during peak season as required.

Our Benefits:

- Paid Time Off and Paid Holidays
- Competitive Group Benefits Program
- Long-Term Care Insurance
- RRSP Program with Company Match
- Ongoing Training and Learning opportunities
- Cell phone Allowance
- Mileage reimbursement

Competitive wage rate with qualifications and experience. References required.
